- Total time should be no more than 3 minutes.
 - Woodwinds and Brass: choose two contrasting etudes (one technical and one lyrical).
 - Percussion: choose two solo works (concert literature or etudes). The two works must be for two different instrument types (for example snare and timpani, or snare and a mallet instrument, or a mallet instrument and timpani - NOT two mallet instrument etudes.)
- Before you play, state your name and instrument on the recording
- Try to record the audition in a large space
- Listen to the recording before you send it to be sure everything recorded correctly
